

## PARAPET SHEAR PANEL

The PSP™ integrates a traditional truss shear block and parapet wall framing into one innovative high-strength component.

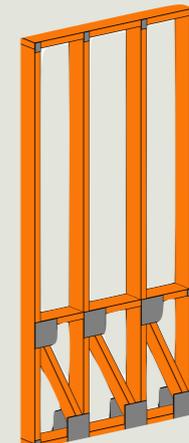

- Strong enough to eliminate most parapet kickers
- Mates to the PAL™, ends oversized trucking issues
- Reduces field labor (one step, one component)
- Reduces structural connector requirements
- Strongly and Simply affixes using our HSC™
- Integral sub-component of our ADS-P™ for four axis load-resisting system
